Technical (PA and Lights)

Tom Shed requires three audio inputs:
1 - vocal microphone
2 - instrument (one microphone, one DI-direct input)

Tom can furnish his own microphones, phantom power is requested but not necessary.

If needed, Tom carries PA and light equipment for concerts up to 100 people. Sound reinforcement for up to 200 is available with adequate prior notice. Tom's lighting consists of basic focused clamp on lights. Two standard single phase outlets will meet all electrical requirements (15 amp each).

Parking

Parking for a 36 ft. tour bus.
One single phase standard outlet would be appreciated.
